### **About:**

The skilled services provided by the highly qualified professionals working for our program make it possible for many vulnerable adults and frail elders to remain in more affordable and emotionally-supportive care of their families. Our program also makes it possible for family caregivers to remain in the workforce, knowing that their loved ones are secure during the workday.

At Circles of Caring Adult Day Services

Our mission is to...

- Provide community-based health and wellness enhancement for adults and elders with specialized needs.
  - Provide a "healthy living" option for our aging and at-risk population, and a daytime care alternative for their families and care providers.
  - Assist program participants in living and remaining in their own community as long as is safely possible.
  - Help our participants improve or maintain their physical and/or cognitive functional abilities so they are able to remain at home as long as they and their families desire.
  - Work within the standards of conduct that reflect the values of the National Council on Aging.
-
