Email: judy@thedawnmethod.com

About:

DAWN believes in preserving dignity and autonomy through aging in place, by providing training for families and caregivers in recognizing the abilities and disabilities of dementia and meeting the emotional needs it causes. The DAWN Method comes from Judy Cornish's work with families and people dealing with dementia here on the Palouse since 2010. Its simple tools enable families to live with loved ones who have dementia with less stress and more companionship.

Services: Dementia Care Training
